Theory of Change

Summarises the impact pathways the Fund hopes to support through its initial priority focus areas of Pillars 2 and 3 (approximately years 1-2 of the Fund’s lifespan). This TOC may be updated over time as the Fund’s focus changes and grows to include the other strategic pillars.

A South Africa free from GBVF directed at women, children and LGBTQIA+ persons (as per NSP)

South Africa has made considerable progress in rebuilding social cohesion in ways where GBVF, and violence more broadly, is deemed unacceptable.

Strengthened knowledge and understanding of GBVF

Women, children and LGBTQIA+ persons are enabled to act against GBVF

Survivors do not experience secondary victimisation

Perpetrators are convicted

Strengthened service provision within the criminal justice system, department of health, department of social development and communities

**Donor Engagement Approach**

- Following the successful launch of the GBVF Response Fund1 (“the Fund”) on 4 February 2021, Donors are classified into 2 categories:
  
  1. **Direct Cash Donations** - Donors in this category are making a direct cash donation, which will then be disbursed as determined by the Board and the Disbursement Committee towards the Fund’s initiatives.
  
  2. **Indirect Programme funding** – donations in this category are ring-fenced and the funds are to be disbursed to specific projects/initiatives based on criteria to be agreed, and in line with the NSP and GBVF Response Fund1 strategic pillars.
